

Gen2 Ambiance

OTIS

Art in Motion

Another room in your building

The image shows a modern interior space with a wood-grain wall and ceiling. A recessed light fixture is visible in the ceiling, and a dark wall on the right side contains the text. The lighting is soft and ambient, creating a sophisticated atmosphere.

Gen2 ambiance is pure,
simple and intuitive.
Sophisticated lighting
and quality materials
compliment your building's
design — creating another
room in your building.

The image shows the interior of a modern elevator. The walls are finished with a light-colored wood-grain laminate. A prominent feature is a bright red LED light strip that runs along the top and bottom edges of the walls, creating a dramatic, high-contrast lighting effect. A metal handrail is visible at the top of the frame. The overall design is clean, minimalist, and contemporary.

A designer achieves
perfection not when
there is nothing
left to add, but
rather, when there is
nothing to take away.

Choose your ambiance

MODERN

Standard

Imitation metal,
stone and concrete

Advanced

Laminates and
stainless steel

Premium

Quality metals for side
panels and glossy colors
for rear panel

Natural Ambiance

Inspired by 21st-century architectural movements, Natural Ambiance creates a harmonious connection among the elevator, hallways and lobby.

Natural materials like wood, stone and leather are combined into a minimalistic design. Vertical lighting in the cab interior is nested along curved corners. Materials, textures and lighting combinations express natural beauty.

Modern Ambiance

Timeless design is energized with modern materials to create a hi-tech experience. Sharp forms enhance metallic and glossy textures. Dark, anodized decorative elements contrast with vertical lighting. Simple designs, efficient results.
