

OneCall™

DESTINATION ENTRY KEYPAD

ONE TOUCH AND YOU'RE GOOD TO GO

OneCall is our latest destination entry keypad that's designed to make life simple. Hall and floor calls are now just a matter of pushing a single button. Enter your destination, get your lift information and follow the directions...all you need to do is enjoy the ride.

SENSE OF DIRECTION

The crisp, bright 4.3" colour display verifies the floor and shows which car you'll be taking.

COMING SOON

You can clearly see the current position of up to two cars, so you know exactly where your lift is.

ONE-TOUCH CONVENIENCE

Just select your destination straight from the standard keypad.

SAFE AND SECURE

A 4-digit code prevents unauthorised use of the lift.

ACCESSIBILITY

Press the Accessibility button and door times are lengthened, together with an audible hall call mode.

ELEGANT DESIGN AND FINISH

Made from high quality aluminium, the wall-mounted unit is tactile and easy to use.

DESTINATION ENTRY KEYPAD

CUSTOMISATION – IT'S YOUR CALL

Your OneCall screen can be configured to display single or multiple cars, and the background can feature your choice from a spectrum of solid colours, or one of four special patterns. Our mechanic can set up your customisation choices straight from the keypad.

WAY TO GO

Our signage is designed to make it easy for passengers to find their lift. The smart, wide angle shape can be read at a glance, matches all landing layouts and can be chosen with optional LED backlighting.
