Art in motion

Gen2 Ambiance

OTIS

Another room in your building

Gen2 Ambiance is pure, simple and intuitive. Sophisticated lighting and quality materials compliment your building's design — creating another room in your building. A designer achieves perfection not when there is nothing left to add, but rather, when there is nothing to take away.

Remarkable design variations

Choose between a wide range of materials and colours.
From puristic cabs to high sophisticated eyecatchers — you will find what you are searching for.
Handrails, kick plates and buttons must always have the same finish.

Natural Ambiance

Inspired by 21st century architectural movements, Natural Ambiance creates a harmonious connection among the elevator, hallways and lobby. Natural materials like wood, stone and leather are combined into a minimalistic design. Vertical lighting in the cab interior is nested along curved corners. Materials, textures and lighting combinations express natural beauty.

Modern Ambiance

Timeless design is energized with modern materials to create a hi-tech experience. Sharp forms enhance metallic and glossy textures. Dark, anodized decorative elements contrast with vertical lighting. Simple designs, efficient results.

Extraordinary customer experience

A COMMITMENT TO EXCEPTIONAL SERVICE

GLOBAL SERVICE

The technical service will keep you informed about the coordination of your project so that it is fast and efficient.

OTIS REMOTE SERVICE

With this premium option, dedicated engineers remotely monitor your equipment data in real time to prevent or resolve any problems as they arise. This ensures fewer service calls, accelerates response time and helps to dramatically reduce elevator downtime.

eSERVICE CUSTOMER PORTAL

The eService customer portal provides 24/7 remote access to Otis systems, simplifying elevator management and monitoring. It allows users to view performance data, place service calls. The simple interface is compatible with computers, tablets and mobile operating systems.

Solutions in motion

The new Gen2 family of elevators blend convenience, style and performance to deliver a new passenger experience that adds value to any residential, commercial, hospitality, medical or industrial building.

To learn more about our comprehensive family of Gen2 elevators visit www.otis.com

GEN2 LIFE

The heart of residential and commercial buildings, the Gen2 Life elevator moves tenants seamlessly through their days.

GEN2 FIT

Design for refurbished buildings with minimum spaces.

GEN2 STREAM

For demanding commercial and hospitality buildings.

GEN2 FLEX+

This elevator is ideal for any project, in particular for refurbished buildings.

GENESIS

For social housing and modern living Genesis offers latest technology.

GEN2 HOME

Built as a platform lift Gen2 Home provides a best class homelift experience.

— Otis gives people freedom to connect and thrive in a taller, faster, smarter world. The global leader in the manufacture, installation and servicing of elevators and escalators, we move 2.3 billion people a day and maintain more than 2.3 million customer units worldwide – the industry's largest Service portfolio. You'll find us in the world's most iconic structures, as well as residential and commercial buildings, transportation hubs and everywhere people are on the move. Headquartered in Connecticut, USA, Otis is 71,000 people strong, including 42,000 field professionals, all committed to meeting the diverse needs of our customers and passengers in more than 200 countries and territories. To learn more, visit www.otis.com and follow us on LinkedIn, Instagram and Facebook.
