Arise[™] MOD

ELEVATOR MODERNIZATION SOLUTIONS

Why Modernize with Otis Now?

ENHANCE SAFETY

Upgrade your system to the latest safety standards and regulations. At Otis, safety is always first.

IMPROVE PERFORMANCE & RELIABILITY

Minimize shutdowns and increase the availability of your elevator. With Otis, you gain access to cutting-edge and connected solutions.

MINIMIZE THE UNEXPECTED

Control the pace, cost and planning of your project thanks to our proven experience.

BOOST SUSTAINABILITY

Manage your impact on the environment by increasing efficiency and reducing energy consumption with our wide range of packages tailored to your buildings' needs.

BRING PASSENGER EXPERIENCE TO THE NEXT LEVEL

Increase the appeal of your property and provide shorter waiting times and more comfortable, accessible, connected journeys via our wide range of contemporary aesthetics and advanced technologies.

Explore the benefits of the Arise™ MOD solution

Our Arise MOD solution is modular and flexible, allowing you to upgrade your installation in phases according to your budget. It provides a progressive improvement of your elevator by enhancing safety, reliability, sustainability, accessibility and the overall passenger experience.

ENHANCE SAFETY

Reduce tripping hazards while entering and exiting thanks to a new frequency variation electronic drive.

Provide constant monitoring of the system in real time via the Otis ONE™ digital platform.

Provide close loop door system operation to create a smooth, quiet, reliable performance.

IMPROVE PERFORMANCE & RELIABILITY

Minimize unexpected outages and obsolescence issues with a new electronic control system and a gearless machine.

Enhance availability and passenger comfort with the installation of latest technology and future-proof your elevator.

Take advantage of our phased approach and leverage our three packages: Prime, Plus, and Pro.

MINIMIZE THE UNEXPECTED

Plan your budget with our experts from the earliest stages of capital planning to ongoing operations.

Determine the pace of your modernization by retaining essential components of the existing installation, when possible.

Minimize disruption and installation time with our expert installers. Arise MOD retains the existing slab configuration, limiting the need for structural and builder's work.

BRING PASSENGER EXPERIENCE TO THE NEXT LEVEL

Provide easy travel and shorter wait times thanks to an intelligent dispatch system.

Upgrade your building's appeal and accessibility with new landing and car fixtures, included as a standard in our entry range Prime package.

Delight passengers with various optional aesthetics and accessibility features.

A new level of connectivity

Otis ONE is our IoT solution that connects your Otis and non-Otis elevator to the cloud to deliver a seamless passenger experience. From real-time data insights to remote services, enhance your building's performance.

BOOST SUSTAINABILITY

Choose which components to replace at what time with a phased modernization, so you can keep reliable components throughout their entire lifecycle.

Select your energy-saving solution. With Arise MOD, you select from a wide range of gearless machines. They come with our ReGen™ drive to save energy.

The right partner with the right solutions

Our Prime, Plus and Pro packages let you decide how to upgrade your building.

Arise™ MOD Prime Package

This package provides replacement of the elevator's control system with digital technologies that reduce the risk of spare parts shortages and allow for easier future upgrades. Prime delays the obsolescence of key elevator components and reduces unplanned downtime.

Standard Upgrades

- 1 Controller
- 2 Frequency variation drive
- 3 Machine encoder (when needed)
- 4 In-car control panel
