Modernisation

Arise™ MOD

CHOOSE THE COST AND SPEED OF YOUR ROPED LIFT
MODERNISATION WITH OUR PHASED APPROACH

Why modernise with Otis now?

ENHANCE SAFETY

Upgrade your system to the latest safety standards. At Otis, safety is always first.

IMPROVE PERFORMANCE & RELIABILITY

Minimise shutdowns and increase the availability of your lift. With Otis, you get access to cutting-edge and connected solutions.

MINIMISE THE UNEXPECTED

Control the pace, cost and planning of your project thanks to our proven experience.

BOOST SUSTAINABILITY

Manage your impact on the environment by increasing efficiency and reducing energy consumption thanks to our wide range of packages tailored to your building's needs.

BRING PASSENGER EXPERIENCE TO THE NEXT LEVEL

Increase the appeal of your property and provide shorter wait times and more comfortable, accessible, connected journeys thanks to our selection of contemporary aesthetics and advanced technologies.

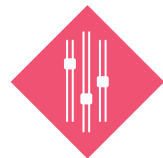

Explore the benefits of the Arise™ MOD solution

With the Arise MOD Prime and Plus phased solution, you choose the cost and speed of your lift modernisation within your budget and timeline. Upgrade your lifts to the latest safety standards and access the most up-to-date technology to improve your equipment's reliability and elevate your passenger experience.

ENHANCE SAFETY

- ◆ **Bring your system up** to the latest European safety standard (EN-81-20).
- ◆ **Reduce common tripping hazards** thanks to a new frequency variation electronic drive that more precisely controls lift speed for improved floor-leveling accuracy.
- ◆ **Provide constant monitoring** of the system in real time via the Otis ONE™ IoT digital platform.

IMPROVE PERFORMANCE & RELIABILITY

- ◆ **Create a smoother and more comfortable ride** with a new machine and new cables.
- ◆ **Reduce shutdowns and repairs** with a new state-of-the-art car door system that more precisely controls the opening and closing of lift doors.
- ◆ **Take advantage of our phased approach** and leverage our two packages: Prime and Plus.

MINIMISE THE UNEXPECTED

- ◆ **Plan your budget with our experts** from the earliest stages of capital planning to ongoing operations.
- ◆ **You choose the cost and speed** of your lift modernisation within your budget and timeline.
- ◆ **Minimise disruption and installation time** with our expert installers. Arise MOD retains the existing slab configuration, limiting the need for structural work.

BRING PASSENGER EXPERIENCE TO THE NEXT LEVEL

- ◆ **Choose from a wide variety** of new landing fixtures, hall signage, in-car control panels and modern cab designs to match your style and budget.
- ◆ **Create a more accessible** and inclusive experience by adding features such as Braille and voice announcements to lift calls.
- ◆ **Provide easier travel and shorter wait times** thanks to our Compass® 360 destination dispatching technology.

BOOST SUSTAINABILITY

- ◆ **Choose which components to replace and when**, so you can keep reliable parts throughout their entire lifecycle. This results in less waste and less disposal of parts.
- ◆ **Reduce energy consumption** by as much as 50% vs. non-regenerative geared systems and by as much as 75% vs. hydraulic ones, with our ReGen™ drive, which comes standard on our Arise MOD phased solution.

A new level of connectivity

Otis ONE is our IoT digital platform that connects your Otis and non-Otis lift to the cloud to deliver a seamless passenger experience. From real-time data insights to remote services, enhance your building's performance.

The right partner with the right solutions

Arise™ MOD Prime

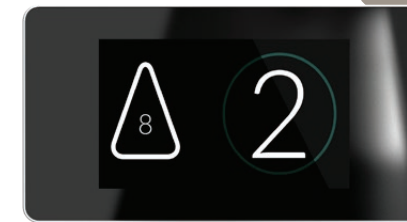

This package provides a replacement of the lift's control system with digital technologies that reduce the risk of spare parts shortages and allow for easier future upgrades. Prime delays the obsolescence of key lift components and reduces unplanned downtime.

Standard Upgrades

- 1 Controller with Otis ONE™ IoT
- 2 Frequency variation drive (ReGen™ drive compatible for future upgrades)
- 3 Machine encoder (when needed)
- 4 In-car control panel
- 5 Landing fixtures and hall signage

Options

- 6 Car door operator
- 7 eView™ in-car display
- 8 Car interior (panel, ceiling, floor)
- 9 Overspeed governor

Arise™ MOD Prime Key Benefits

- ◆ Enhance safety
- ◆ Improve performance
- ◆ Minimise disruption

Arise™ MOD Plus Key Benefits

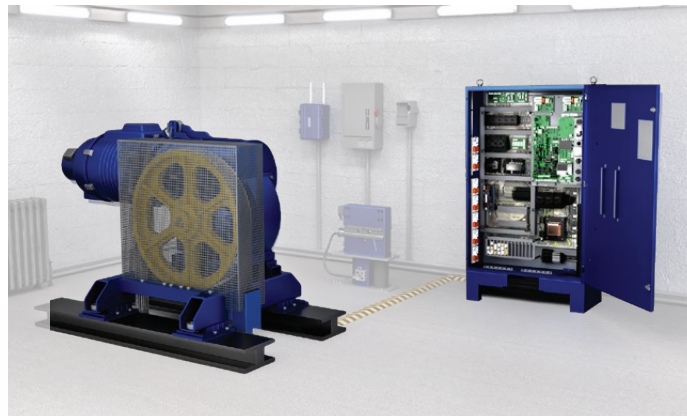

- ◆ Enhance safety
- ◆ Boost sustainability
- ◆ Bring passenger experience to the next level

Choose the modernisation package that is right for your building

ARISE™ MOD PRIME

Bring your lift control system up to the latest European safety standards, reduce common tripping hazards with a new frequency variation drive and enhance your building's performance with real-time data insights and remote services with our Otis ONE™ IoT digital platform.

ARISE™ MOD PLUS

Includes all Prime upgrades plus advanced features such as a new machine and new cables for a smoother and more comfortable ride, and a new state-of-the-art car door system that more precisely controls the opening and closing of lift doors to reduce shutdowns and repairs.

GEN®2 MOD

You can now upgrade your Arise roped lift to Otis Gen® 2 MOD belt technology.

Learn more at otis.com/mod

The Arise MOD package is unique because you can organize your modernisation in phases.

This makes the solution well suited for residential buildings where property managers and owners need to carefully manage their budget.

You can begin your modernisation with the Arise MOD Prime solution and move to a Plus package at a later stage, or you can start with the Plus package.

The Plus package can be either an Arise MOD Plus solution, which includes a new geared machine and ropes, or you can upgrade your system to Otis Gen2® belt technology that comes equipped with a gearless machine and polyurethane coated steel belts for enhanced ride quality.

Discover a flexible way to modernise your lifts with Otis MOD solutions.
