

Custom Car Operating Panel

Otis Viva™ solutions
Move Freely, Live Fully™

APPLICATION:

- ☑ Elevators

BENEFITS:

- ☑ Superior passenger safety
- ☑ Reliable performance
- ☑ Inclusive environments

ACCESSIBILITY AND DESIGN

As our population ages, the need for elevators that support safe, confident, and independent movement becomes increasingly important. Our Cab Operating Panel solution offers a comprehensive set of features designed with safety, accessibility, and modern design in mind. These customizable elements not only enhance the user experience for senior passengers and individuals with special needs but also complement the building's style.

FEATURES

HIGH CONTRAST BUTTONS

- ☑ Customizable light colors for higher contrast.
- ☑ Designed for easy identification by elderly and visually impaired individuals.

AUDIBLE BUTTONS

- ☑ Provide auditory feedback for button presses.
- ☑ Trigger sound-based signals for enhanced accessibility.

BRILLE PLATES

- ☑ Tactile identification for floor buttons and elevator information.
- ☑ Essential for visually impaired passengers.

CUSTOMIZABLE PANEL HEIGHT

- ☑ Adjustable to meet the needs of elderly passengers or those with special requirements.

BENEFITS

ENHANCED ACCESSIBILITY

- ☑ Supports passengers with varying visual, hearing, or mobility needs.

USER-FRIENDLY DESIGN

- ☑ Facilitates ease of use for all individuals, promoting confidence and independence.

MODERN AESTHETIC

- ☑ Complements building style while integrating vital accessibility features.

Adapt your building's elevators with our custom Cab Operating Panel to ensure everyone navigates with ease and confidence, today and into the future.
