**BUILT FOR LOW-RISE, DESIGNED FOR  
MAXIMUM EFFICIENCY**

# Introducing the Gen3™ platform

At Otis, innovation drives everything we do, from increasing lift safety and performance to reducing environmental impact.

Our Gen3 platform is equipped with our latest cutting-edge technologies and digital solutions to deliver the exceptional quality and service you expect.

Discover how our Gen3 platform opens up a world of possibilities.

## SAFETY YOU CAN TRUST

Designed to meet the industry's most stringent safety standards, the Gen3 platform offers your passengers the confidence and peace of mind they expect in a lift. At Otis, safety is always first.

## EXPERIENCE TECHNOLOGY-DRIVEN RELIABILITY

The Gen3 platform is equipped with a suite of Otis technologies that form a powerful digital ecosystem, including Otis ONE™, our IoT solution that improves uptime and increases service quality.

## BOOST SUSTAINABILITY

Energy efficiency is integral to the Gen3 platform's design with our ReGen™ drive which recaptures energy generated by the lift and returns it to the building's grid. The Gen3 platform also includes commonly available efficiency features like LED Lighting and sleep mode that shuts down the lift when not in use. These technologies help reduce energy consumption, and can support customers in meeting the energy criteria of globally recognised building efficiency certifications.

## BRING PASSENGER EXPERIENCE TO THE NEXT LEVEL

The Gen3 platform elevates the passenger experience with smooth, comfortable and digitally connected rides in stylish cabins that can be customised to suit your building's style and budget.

## MINIMISE THE UNEXPECTED

No matter which lift you choose from the Gen3 platform, our team of experts will partner with you every step of the way from planning and design to installation to service and finally, scalable upgrades when it is time to modernise your system.

## DESIGNED FOR QUALITY AND SUSTAINABILITY

Assembled in our ISO-certified factories in Europe, the Gen3 platform meets high quality standards and offers the performance and reliability you expect from Otis products and services.

Energy efficiency and sustainability are integral to the design of the Gen3 platform. Our customers can make informed procurement decisions thanks to the transparent, verified, and comparable information presented in our Environmental Product Declarations (EPDs). [See [www.otis.com](http://www.otis.com) for a list of products for which EPDs are available].

# Introducing the Gen3 Core™ lift

The Gen3 Core lift is a perfect fit for contemporary living spaces. It offers style and comfort to passengers at a competitive price point. It is an ideal choice for buildings with up to 45 metres of travel and speed of one metre per second.

Maximum travel / Stops

**45 m /  
18 stops**

Passengers

**4 - 13**

Travel speed

**1.0 m/s**

Duty load

**320 - 1000 kg**

## THE GEN3 CORE™ LIFT BENEFITS

- ◆ Space-saving design
- ◆ All-new aesthetics options
- ◆ Minimal installation costs and materials

# The Gen3 Core™ lift

## Powered by Otis signature technologies

### PATENTED BELTS

Enjoy smooth and comfortable rides with our patented, coated steel belts that redefined the industry. They are three times longer-lasting, 20% lighter than conventional ropes, and do not require any lubrication.

### PULSE™ SYSTEM

The Pulse system continuously monitors the condition of the belts for added safety, helping to eliminate service interruptions by ensuring efficient and safe operation.

### REGEN™ DRIVE

The ReGen drive captures energy usually wasted as heat and returns it to your building for your use as power. It reduces energy consumption compared to conventional systems without regenerative technology.

### GEARLESS MACHINE

The Gen3 platform is equipped with gearless machines that are 80% smaller and as much as 50% more efficient compared to traditional geared machines and feature permanent magnet motor technology that uses less energy.

# Otis ONE™

## Enhance and personalise your service experience

Otis ONE is our IoT solution that connects your lifts to the cloud to deliver a seamless passenger experience. It turns your lift into a powerful network of sensors that collect data and analyse your equipment. This enables our technical experts to monitor lift health in real time, and when possible perform remote interventions to resolve issues quickly, improve uptime and increase service quality.

- + **REAL-TIME TRANSPARENT INFORMATION**  
 Gain peace of mind and make informed decisions with the Otis Customer Portal
- + **PROACTIVE COMMUNICATION & PREDICTIVE INSIGHTS**  
 Drive operational efficiency
- + **PREVENTIVE MAINTENANCE**  
 Minimise disruption and maximise uptime
- + **ENTERTAINMENT & SAFETY BENEFITS**  
 Enhance every journey with the eView™ display
- + **CONNECTION TO CUSTOMER APPLICATIONS**  
 Unlock the full potential of your building

\*Otis ONE features are subject to a maintenance contract and paid tiered subscription with Otis

# eView™

## Bring safety, connectivity and innovation into view

eView is a sleek and smart in-car display available with Otis ONE that is designed to enhance every journey. In case of an emergency, eView enables an instant connection with our OTISLINE® customer care centre via secure digital voice or video calls for added passenger reassurance. It also keeps your passengers informed and gives you the freedom to customise your screen with building news, weather, and equipment updates—turning travel time into a connected experience.

**ELEGANT DESIGNS AND FINISHES**

The Gen3 Core™ lift comes with elegant finishes, and is equipped with a new car operating panel (COP), hall fixtures, buttons and panel indicator and new color selections. It is ideal for customers who want a stylish lift at an accessible price point.

**THERE ARE CUSTOMISED  
AESTHETICS FOR EVERY BUILDING**
