

OTIS

Modernisation

The Gen3™ MOD solution

THE UPGRADE YOU AND YOUR PASSENGERS WILL FEEL

Why modernise your roped lift with Otis?

ENHANCE SAFETY

Upgrade your system to the latest safety standards and regulations. At Otis, safety is always first.

IMPROVE PERFORMANCE & RELIABILITY

Minimise shutdowns and increase the availability of your lift. With Otis, you get access to cutting-edge and connected solutions.

MINIMISE THE UNEXPECTED

Control the pace, cost and planning of your project thanks to our proven experience.

BOOST SUSTAINABILITY

Manage your impact on the environment and reduce energy consumption with our ReGen™ drive, which recaptures energy generated by the lift and returns it to the building's grid.

BRING PASSENGER EXPERIENCE TO THE NEXT LEVEL

Increase the appeal of your property and provide shorter waiting times and more comfortable, accessible, connected journeys with our wide range of contemporary aesthetics and advanced technologies.

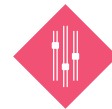

Explore the benefits of the Gen3™ MOD belt solution

Upgrading your roped lift system to the Gen3™ MOD coated steel belt solution is the smart choice to elevate your building's appeal and value. Packed with Otis signature technologies and delivered with minimal disruption by our expert teams, it opens the door to safer, smoother, smarter rides, improved uptime and greater durability.

ENHANCE SAFETY

- ◆ Reduce tripping hazards while entering and exiting the lift with +/- 5 mm stopping accuracy.
- ◆ Provide constant monitoring of the system in real time via the Otis ONE™* digital platform.
- ◆ Detect passengers and prevent doors from closing via door detectors with an infrared safety zone.

IMPROVE PERFORMANCE AND RELIABILITY

- ◆ Help prevent outages and obsolescence with a new electronic control system and a gearless machine.
- ◆ Receive real-time data insights and access remote services.*
- ◆ Experience state-of-the-art patented coated steel belts, which are 3X longer-lasting and 20% lighter than conventional ropes.

MINIMISE THE UNEXPECTED

- ◆ Plan your budget with our experts from the earliest stages of capital planning to ongoing operations.

BRING PASSENGER EXPERIENCE TO THE NEXT LEVEL

- ◆ Delight passengers with various aesthetics and accessibility features.
- ◆ Provide easy travel & shorter wait times thanks to our intelligent dispatch system.
- ◆ Reduce vibration (up to 12%) and noise in the car (up to 52%) compared to conventional geared systems.

BOOST SUSTAINABILITY

- ◆ Reduce energy consumption with our ReGen™ drive, which recaptures energy generated by the lift and returns it to the building's grid.
- ◆ Remove the need for oil with our coated steel belt design.
- ◆ Options include commonly available efficiency features like LED lighting and sleep mode that help reduce energy consumption.

*Otis ONE features are subject to a maintenance contract and paid tiered subscription with Otis.

The Gen3™ MOD solution

Powered by Otis signature technologies

PATENTED BELTS

Enjoy smooth and comfortable rides with our patented, coated steel belts that redefined the industry. Maximise safety and minimise downtime with the Pulse™ system that monitors the condition of the belts 24/7 for added peace of mind.

REGEN™ DRIVE

The ReGen drive captures energy usually wasted as heat and returns it to your building for your use as power. It reduces energy consumption compared to conventional systems without regenerative technology.

GEARLESS MACHINE

The Gen3 platform is equipped with gearless machines that are 80% smaller and as much as 50% more efficient compared to traditional geared machines and feature permanent magnet motor technology that uses less energy.

COMPASS® DISPATCHING TECHNOLOGY

Reduce wait times and maximise traffic flow with our Compass® 360 destination management technology. It can integrate with your building system's applications to create seamless travel and special VIP experiences.

Otis ONE™

Enhance and personalise your service experience

Otis ONE* is our IoT solution that connects your lifts to the cloud to deliver a seamless passenger experience. It turns your lift into a powerful network of sensors that collects data and analyses your equipment. This enables our technical experts to monitor lift health in real time, and when possible perform remote interventions to resolve issues quickly, improve uptime and increase service quality.

REAL-TIME TRANSPARENT INFORMATION

Gain peace of mind and make informed decisions with the Otis Customer Portal

PROACTIVE COMMUNICATION & PREDICTIVE INSIGHTS

Drive operational efficiency

PREVENTIVE MAINTENANCE

Minimise disruption and maximise uptime

ENTERTAINMENT & SAFETY BENEFITS

Enhance every journey with the eView™ display

CONNECTION TO CUSTOMER APPLICATIONS

Unlock the full potential of your building

*Otis ONE features are subject to a maintenance contract and paid tiered subscription with Otis.

eView™

Bring safety, connectivity and innovation into view

eView is a sleek and smart in-car display available with Otis ONE that is designed to enhance every journey. In case of an emergency, eView enables an instant connection with our OTISLINE® customer care center via secure digital voice or video calls for added passenger reassurance. It also keeps your passengers informed and gives you the freedom to customise your screen with building news, weather, and equipment updates—turning travel time into a connected experience.

The right partner with the right solutions

Our Plus and Full Replacement packages add new value to your building, and our phased approach lets you modernise at your own pace for smoother budgeting and project management.

Gen3™ MOD Plus Package

This package provides a replacement of the lift's key components, and includes a connected control system, a gearless machine, suspension belts and our ReGen™ drive.

STANDARD UPGRADES

- 1 Controller with Otis ONE™* and ReGen Drive
- 2 In-car control panel with eView™ in-car display
- 3 Landing fixtures and hall signage
- 4 Gearless machine & Pulse™ electronic system
- 5 Belts with car and counterweight interfaces

KEY OPTIONS

- 6 Car door operator
- 7 Car interior
- 8 Overspeed governor

*Otis ONE features are subject to a maintenance contract and paid tiered subscription with Otis.

Upgrade to Gen3™ MOD and set your building in motion.

Your lift is the backbone of your building's daily operations and an essential part of your tenants' experience. If your roped lift system is approaching or exceeding 20 years old, now is the time to modernise it, ensuring your property stays ahead in safety, reliability, and passenger experience.

Our Gen3 MOD solutions help you do just that.

Built on the latest Otis signature technologies, our solutions make it easy to transform an aging system into a smoother, quieter, more energy efficient ride. With Gen3™ MOD, you can deliver a safer, smoother and more superior in-car experience.

- ◆ Optimise traction and performance with our patented, coated steel belts that support more fluid acceleration and deceleration for a more refined and controlled ride.
- ◆ Connect passengers to our OTISLINE® customer care center with the eView™ in-car display for added passenger reassurance, and provide infotainment for a more connected experience.
- ◆ Increase your building's appeal and value with contemporary fixtures and interiors from our award-winning Ambiance aesthetics line.
