

Glide® Door Operator

Otis Viva™ solutions
Move Freely, Live Fully™

APPLICATION:

- ▣ Elevators

BENEFITS:

- ▣ Superior passenger safety
- ▣ Reliable performance
- ▣ Inclusive environments

ELEVATING SAFETY AND ACCESSIBILITY

As buildings evolve to meet the needs of a diverse and aging population, the Glide Door Operator offers a reliable solution for enhancing safety and accessibility. Designed for low and medium-speed elevators, it provides smooth, controlled, and consistent door operation, supporting the needs of all passengers.

FEATURES

SOLID-STATE CLOSED-LOOP CONTROL:

- ▣ Provides precise control over door speed and position, ensuring consistent operation.

QUICK INSTALLATION & SETUP:

- ▣ Engineered for fast installation with no cumbersome linkages, and easy setup with just two button presses.

LIGHTWEIGHT DESIGN:

- ▣ Easier to position and install due to its lighter weight compared to traditional operators.

SELF-CORRECTING SYSTEM:

- ▣ Maintains performance in variable conditions like wind and temperature changes.

BENEFITS

ENHANCED SAFETY FOR ALL USERS:

- ▣ Controlled door closing speeds offer extra protection for those needing more time to enter and exit safely.

RELIABLE PERFORMANCE:

- ▣ The simple mechanical design reduces the need for part replacements, ensuring long-term reliability.

INCLUSIVE ENVIRONMENTS:

- ▣ Supports building owners in creating spaces that accommodate a diverse range of passengers, including the elderly.

Elevate your building's accessibility and safety with the Glide Door Operator, the perfect choice for upgrading your elevator systems to meet the needs of all users today and tomorrow.
