MODERNISATION

LINK™ MOD

ADD SAFETY, RELIABILITY AND STYLE IN EVERY STEP YOU TAKE

Why modernise with Otis now?

ENHANCE SAFETY
Upgrade your system to the latest safety standards and regulations. At Otis, safety is always first.

IMPROVE PERFORMANCE & RELIABILITY
Minimise shutdowns and increase the availability of your escalator. With Otis, you get access to cutting edge and connected solutions.

MINIMISE THE UNEXPECTED
Control the pace, cost and planning of your project thanks to our proven experience.

BOOST SUSTAINABILITY
Manage your impact on the environment and reduce energy consumption with our variable frequency drive, which recaptures energy generated by the escalator and returns it to the building's grid.

BRING PASSENGER EXPERIENCE TO THE NEXT LEVEL
Increase the appeal of your property and delight your passengers with our wide range of contemporary aesthetics and advanced technologies.

Explore the benefits of the Link™ MOD solution

Experience industry-leading technology in every step you take with Link MOD solutions. Our modernisation packages update your escalator to meet global safety standards, improve reliability, and provide more style options - while giving you the flexibility to choose the upgrades that best fit your building and budget. Backed by Otis expertise, every step of your modernisation journey is designed to be efficient, seamless and high quality.

ENHANCE SAFETY

- Choose from three integrated automatic cleaning solutions that can be combined to fit your project.
- Limit irregular movement by keeping escalator steps securely on track with our step safety system.
- Help prevent objects from getting caught in the escalator with our Industry-first mini moving skirt.

IMPROVE PERFORMANCE & RELIABILITY

- Reduce handrail-related callbacks by over 90% with our self-adjusting handrail system, reducing escalator stoppages.
- Minimise shutdowns and keep escalators available when customers need them with the upgraded electronic controller.

MINIMISE THE UNEXPECTED

- Benefit from our extensive experience in escalator modernisation worldwide to minimise disruption during work.
- Led by local experts and R&D engineers, we collaborate with you from capital planning and compliance reviews through installation and ongoing support.

BOOST SUSTAINABILITY

- Improve system efficiency with a new variable frequency drive and machine that recycles energy back into the building's power grid.
- Save oil and prevent leaks with an intelligent lubrication system that adjusts automatically at each lubrication point.
- Reduce energy use when the escalator is idle with our Standby mode/Intermittent package.

BRING PASSENGER EXPERIENCE TO THE NEXT LEVEL

- Delight your passengers with customisable LED options such as balustrade illumination and steps lighting. Glass balustrade comes as standard.
- Create color harmony with a variety of handrail colors your visitors will appreciate.

Link™ MOD Prime

Step into smarter mobility with our MOD Prime solution, featuring a new electronic controller. It's designed for reliability and to keep your passengers moving. When paired with the Otis ONE™ IoT platform, our remote experts can monitor your equipment in real time and, as needed, perform remote interventions to help maximise uptime and performance.

Standard Upgrades

1. Electronic controller
2. Electrical wiring
3. Safety kits

Options

4. Variable frequency drive
5. Otis ONE™ digital platform
6. Self-adjusting handrail system (SAHS)
7. Handrail UV sanitizing and automatic cleaning devices
8. Intermittent operation
9. Smart lubrication system
10. LED lighting options

Link™ MOD Plus

Take another step forward with your modernisation when you select the Link MOD Plus package. Plus offers all the benefits of Prime with added features such as a new escalator machine and a main drive chain for enhanced ride quality and reliability.

Bring your passenger experience to the next level with contemporary, customisable LED balustrade lighting combined with a variety of colored handrails to match the look and feel of your project or add a special touch during events and holidays.

Standard Upgrades

- \+ All Link MOD Prime standard components
- 11 Machine & main drive chain

Options

- \+ All Link MOD Prime options
- 12 Auxiliary brake (standard for rise above 6m)
- 13 Handrail, guides & entry boxes
- 14 Handrail drive
- 15 Steps, step chain & rollers
- 16 Comb & floor plates

Link™ MOD Pro

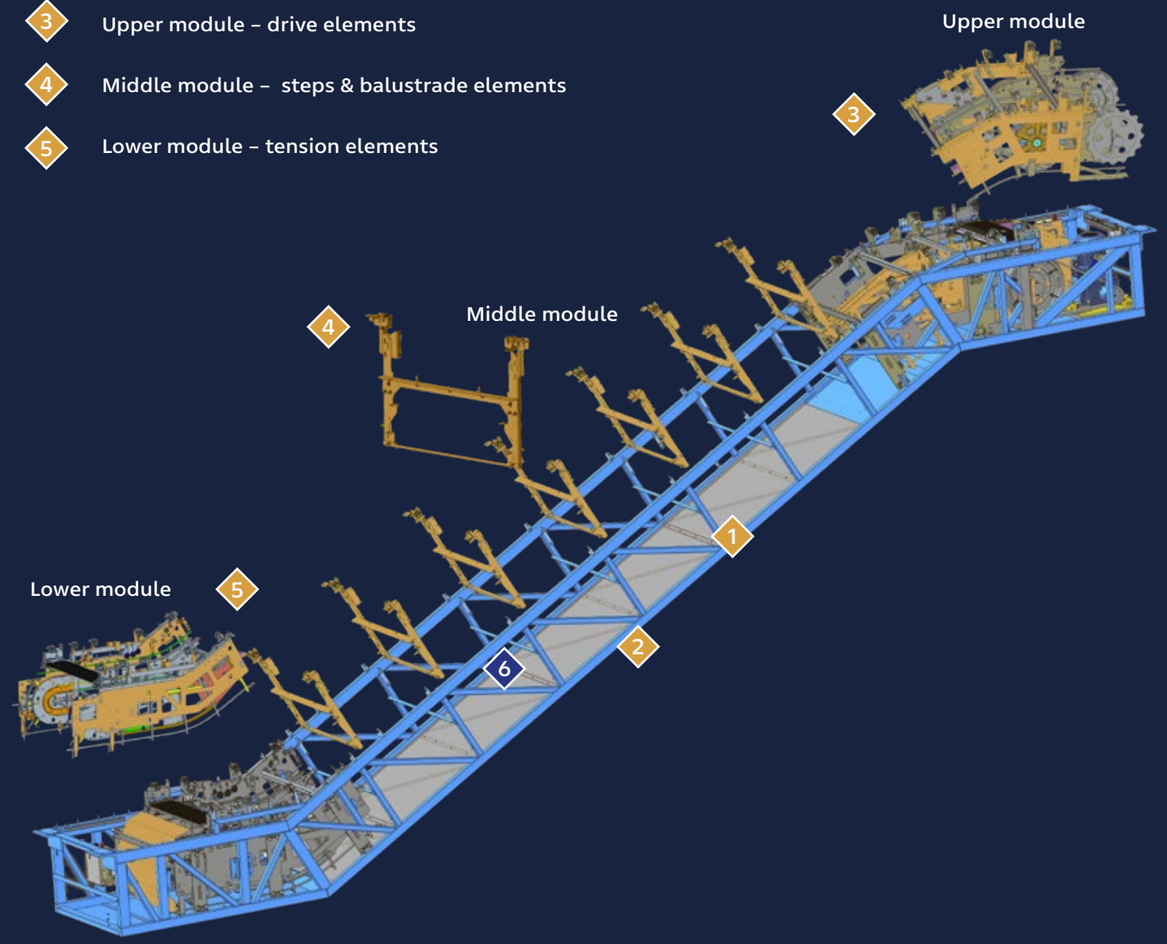

The MOD Pro package delivers a complete modernisation while retaining the truss and cladding. At the heart of this transformation is our Link MOD Pro modular approach, which reimagines escalator modernisation through a highly efficient, factory-preassembled system. The modular design shortens project timelines, while reducing jobsite hazards and downtime in commercial environments. Modularity makes it easier to adapt to different building layouts and modernisation needs.

Standard Upgrades

- \+ All Link MOD Plus standard components
- 1 Truss retained
- 2 Cladding retained
- 3 Upper module – drive elements
- 4 Middle module – steps & balustrade elements
- 5 Lower module – tension elements

Options

- \+ All options from Prime & Plus
- 6 Mini moving skirt

Full Replacement

Discover our solution for escalator replacement and benefit from the installation of a new escalator in your existing space that complies with the latest standards.
