

Otis Robust™ Heavy-duty elevators

Supporting critical 24/7 care

Keep patients, staff and equipment moving around the clock, especially during the most critical moments.

ACCELERATE EVERY STEP

- Allows for quicker bids, drawings and delivery timelines with standardised processes and products to meet go-live milestones for complex healthcare project requirements
- Streamlines delivery with end-to-end support while maintaining high quality to keep projects on schedule

DESIGNED FOR HEAVY DUTY PERFORMANCE AND SAFE OPERATION

- Includes safety systems such as overload detection, an emergency communication system and firefighter operation modes
- Accommodates large equipment, including beds, stretchers and other critical care equipment, with specialised car widths and door openings
- Handles high-load, high-volume demand with reinforced car structures, floors and doors built for durability, with materials designed for intensive cleaning protocols
- Delivers smooth ride quality and accurate floor leveling for safe, stable movement in the car

EXPERIENCE TECHNOLOGY-DRIVEN RELIABILITY

Optimise uptime and service quality to protect your investment

- Helps maximise elevator availability, especially during peak clinical demand, with real-time insights and predictive, proactive maintenance via Otis ONE™
- Enables centralised real-time monitoring and reporting to support regulatory requirements for healthcare facilities with Otis EMS Panorama™ 2.0
- Includes smart system integration
  - Maintains operation continuity during power disruptions with backup power systems
  - Supports secure day-to-day operations with an elevator access control system
  - Enables autonomous robots, connected through Otis Integrated Dispatch™, to operate elevators across floors to support continuous operations

OPERATIONAL FEATURES

- Our Otis ReGen™ drive technology feeds electrical energy back into the building power grid during braking which can then be used to drive other equipment in the building

*Otis ONE features are subject to a maintenance contract and paid tiered subscription with Otis

OTIS

Otis Robust™ range

Choose the right solution for your healthcare facility

Selecting the right elevator system is critical to support efficiency, performance and future scalability in mission-critical facilities. The Otis Robust range includes three advanced solutions, each engineered to address specific applications and operational needs.

Our team of experts, backed by proven experience with customers worldwide, will help you choose the right elevator solution to meet your needs and ensure a high-quality, on-time installation. We also provide world-class service and modernisation upgrades throughout the lifecycle of your facility.

		Otis Gen3™ Robust	Otis Arise™ Robust		Otis Hydro Robust
		Belted — Gearless	Roped — Geared	Roped — Geared or Gearless	Hydraulic drive
		Machine-room-less	Machine-room-less	Machine room	Machine room
	Duty load (kg)	1,275 - 5,000	2,000 – 6,000	7,000 - 12,500	3,000 - 12,500
	Speed (m/s)	0.5 - 1.75	0.5 - 1.0	0.5	0.2 - 0.6
	Max rise (up to m)	75	40		20
