Otis Robust™ Heavy-duty elevators

A game-changing passenger experience

Keep fans, staff and equipment moving throughout every event.

ACCELERATE EVERY STEP

- Allows for quicker bids, drawings and delivery timelines with standardised processes and products to meet go-live milestones across multi-venue or multi-event programs
- Streamlines delivery with end-to-end support while maintaining high quality across phased stadium and large-venue construction programs

DESIGNED FOR HEAVY DUTY PERFORMANCE AND SAFE OPERATION

- Includes safety systems such as overload detection, an emergency communication system and firefighter operation modes compliant with stadium safety codes
- Accommodates large equipment back-of-house logistics, accessibility compliance and rapid emergency response with specialised car widths and door openings
- Handles high-load, high-volume demand, including during peak event traffic, with reinforced car structures, floors and doors built for durability

EXPERIENCE TECHNOLOGY-DRIVEN RELIABILITY

Optimise uptime and service quality to protect your investment

- Helps maximise elevator availability, especially during peak event demand, with real-time insights and predictive, proactive maintenance via Otis ONE™
- Enables stadium operators to centrally monitor, analyse, and coordinate elevator and escalator operations in real time with Otis EMS Panorama™ 2.0
- Includes smart system integration
  - Maintains operation continuity during power disruptions with backup power systems
  - Enables central coordination of elevators, escalators and critical stadium systems via building management systems (BMS)
  - Supports secure day-to-day operations with an elevator access control system across restricted stadium zones

OPERATIONAL FEATURES

- Our Otis ReGen™ drive technology feeds electrical energy back into the building power grid during braking which can then be used to drive other equipment in the building

*Otis ONE features are subject to a maintenance contract and paid tiered subscription with Otis

OTIS

Otis Robust™ range

Choose the right solution for your stadium

Selecting the right elevator system is critical to support efficiency, performance and future scalability in mission-critical facilities. The Otis Robust range includes three advanced solutions, each engineered to address specific applications and operational needs.

Our team of experts, backed by proven experience with customers worldwide, will help you choose the right elevator solution to meet your needs and ensure a high-quality, on-time installation. We also provide world-class service and modernisation upgrades throughout the lifecycle of your facility.

		Otis Gen3™ Robust	Otis Arise™ Robust		Otis Hydro Robust
		Belted — Gearless	Roped — Geared	Roped — Geared or Gearless	Hydraulic drive
