

OTIS

Otis Viva™ solutions

MOVE FREELY, LIVE FULLY™

Otis Viva™ solutions to support longer, more active lives

As the global population ages, Otis is leading with new accessible, intuitive solutions designed to support evolving mobility needs and help older adults remain independent, active and confident throughout their lives.

INTRODUCING OTIS VIVA SOLUTIONS

Designed for older adults, the new Otis Viva solutions - for existing and new buildings - promote safe, reliable mobility in support of longer, more independent and active living.

Both flexible and scalable, Otis Viva solutions help accelerate accessibility improvements in all properties. They enable building owners to meet current standards and evolving tenant expectations while extending the life and performance of existing infrastructure.

IMPROVING ACCESSIBILITY IS EASY TO DO. STARTING NOW.

Otis Viva solutions enable building owners to implement meaningful improvements to elevators in existing buildings through small or large upgrades that meet regulatory and tenant standards while extending the life of their assets. Customers remain in control, making informed choices about the scope, cost, and pace of their elevator enhancements.

Otis Viva solutions are available for new and existing installations.

Our modernization and repair solutions make it easy to upgrade any existing asset, enhancing accessibility, improving mobility and better serve tenants. With compact and flexible designs, Otis can also help add elevators to existing buildings, enabling people with reduced mobility to move freely throughout their property and stay independent as they age in place.

WE HAVE A SOLUTION FOR EVERY BUILDING

A set of elevator features to improve safety, reliability and more intuitive operation for aging populations, while benefiting all passengers

SAFETY YOU CAN TRUST

Powered by Otis advanced technologies, Otis Viva solutions provide a safer and more comfortable ride experience, with benefits that include easier entry and exit, improved lighting and visibility, clear visual and auditory signals, and added handrails to provide stability for balance.

TECHNOLOGY-DRIVEN RELIABILITY

Our in-car screen provides a one-way video display and two-way voice communication when immediate assistance is needed.

BRING PASSENGER EXPERIENCE TO THE NEXT LEVEL

The combination of human-centered design and intuitive elevator technology provides a unique ride experience, making daily journeys more comfortable for those who need them most.

*Please note that not all features and options are standard equipment. For further details on available features and options, please contact your Otis sales representative.

Otis Viva™ solutions

ACCESSIBLE AND INTUITIVE MOBILITY SOLUTIONS FOR ALL SYSTEMS OR SPACES

WHEREVER LIFE TAKES YOU

At Otis, we believe everyone deserves to move freely, confidently, and independently - at home, at work, in their communities and everywhere in between.

DESIGNED TO FIT, WITHOUT DISRUPTION

With deep global expertise in implementing meaningful improvements to elevators in existing buildings through small or large upgrades that meet regulatory and tenant standards while extending the life of assets, Otis delivers exceptional project management, controlled budgets and minimal disruption - so your passengers can keep moving.
